

B-AAA01403 Drone Occurrence Investigation

Executive Summary

On June 17, 2020, the AXH-E230RS drone with the registration number B-AAA01403, owned by the Southern Branch of Coast Guard Administration, lost control and crashed into the waters in front of the North Dike of Anping Fishing Port while operating in the west of Anping Fishing Port in Anping District, Tainan City. The drone fell into the sea and disappeared without any casualties.

Conclusion

The flight data related to the drone before the occurrence showed no abnormalities. Due to the drone crashing into the sea and missing, the factual information is insufficient to determine the cause of the occurrence and make suggestions for improvement.
