Scope of Major Transportation Occurrence

Major Railway Occurrence: Where a train or rolling stock of the railway system or the mass rapid transit system is involved in any of the following situations:

(I) During Operation:

1. Collision on mainline;
2. Derailment on mainline;
3. Fire on mainline;
4. An occurrence at level crossing, or an occurrence involving a train and road traffic, resulting in a fatality of any person on board the train, or resulting in five or more fatalities and injuries;
5. Any situation such as operating against block protection, operating against the signal, signal passed at danger, equipment damage, rolling stock failure, or foreign objects intrusion which may result in a train collision, derailment, or fire, and that, in the judgment of the TTSB, warrants investigation.

(II) Any other occurrence that may significantly affect the life, bodily safety, or property of the public, and that, in the judgment of the TTSB, warrants investigation.

For the purposes of Item 4 Subparagraph 1, "an occurrence involving a train and road traffic" refers to a collision between a train or rolling stock and road vehicle(s) or pedestrian(s).

The Regulation Governing the Handling of Investigation Procedures for Railway Occurrence

Article 3

Following a major railway occurrence or a suspected occurrence, the public/private operators, the organizations of traffic control, the fire department, and the police department shall, within the time limit specified in Article 9 of the Act, report to the TTSB.

In addition, pursuant to Paragraph 2, Article 9 of the Act, the public/private operators shall report to the TTSB any of the following occurrences involving trains or rolling stock of the railway system or the mass rapid transit system:

1. Operation against block protection.
2. Operation against the signal.
3. Signal passed at danger (SPAD).
4. Equipment damage.
5. Rolling stock failure.
6. Death of a person onboard.
7. Death or injury of three or more persons.
8. Train or rolling stock uncoupling.
9. Train or rolling stock runaway movement.
10. Incorrect signal setting.
11. Electrical equipment failure.
12. Operation safety device failure.

13.Incapacitation of the driver.

14.Foreign object intrusion.

In the event of any of the occurrences, the public/private operators, the transportation control agency, the fire department, and the police department shall submit a major railway occurrence report to the TTTSB and give the TTTSB duty officer a status report.
